

I read a very nice article about you in the CF newsletter. What you do is so great for those babies, toddlers, and parents, as well as anyone who needs to know everything about being in or around water. Thank you for being so helpful to our community. I hope all is well with you today and that you have a great afternoon. I would like to ask you about placing an ad in the ELHS 2007 football program. I think you would get some good exposure out of it and it will help the school sports programs. I will forward the email from our booster club VP with the attachments that includes everything about the program, list of businesses, and costs. I would really like to see h2obaby in our program!

Richard
